## FINE ART WOODEN BLOCKS

With a depth of 18 mm, create a beautiful handmade wall mounted piece of art with Fine Art Wooden Block - a combination of high quality birch plywood with your images printed on Fine Art Hahnemühle William Turner 310g paper.

Birch wood is known for its formidable strength and exceptional superficial smoothness.Furthermore, the wooden blocks are sealed with linseed oil that gives the grainnourishment and definition.

Block printing preserves the image in the highest resolution and archival standards. To protect this work of art, avarnish layer provides water and light resistance.
The wooden blocks are available indifferent shapes and sizes. I offer a round, a rectangle and a square shape with a whole range of different sizes.
