

WHY IS **CORAZÓN** THE PERFECT **RED ROSE** ■

.....

Rich, true red hue

Large & beautiful bloom size

Superior vase life of 8 or more days

Elegant, soft satin petals

Uniform opening of each bloom within each bunch or arrangement

Blooms open fully like a graceful garden rose

Each bloom will open in a 4-5 day period

Excellent for special events and gift giving

Lush, dark green foliage with very few thorns

"Customers will say things like 'we kind of doubted you at first, but boy did those roses last. Mine lasted 3 weeks!' or 'When you said not to worry, you were right, etc. So far, Corazon is the only red rose I've ever had that I've never had to replace for credit."

-Dean Knight, Knight's Flowers

CARE AND HANDLING

The Corazon rose is an amazing variety! Have the utmost experience by following these careful directions:

- When your Corazon roses are ready to be processed, use a clean vase and fill it half way with cold water for improved hydration
- Use a liquid storage/holding solution such as Floralife's Clear Rose 200 which improves the hydration process in roses
- Cut the bottom of the stem approximately 1.5 inches at an angle preferably under water
- Remove the outer plastic sleeve, **BUT LEAVE THE PLASTIC HARD WRAP ON THE ROSE HEADS**
- Remove any foliage below the water line to decrease bacteria growth
- Place your roses in the vase and after **2 hours**, REMOVE THE PLASTIC HARD WRAP

By following these directions, your Corazon roses will bloom like garden roses uniformly and last 8 or more days!
