

History (English)

The label "Summer Washed Out" is characterized by the interplay of my love for music and nature. The music of the artist "Washed Out" has accompanied me on my journeys into nature through the past 10 years and made me dream again and again. This dreaminess, the warm summer colors and the "washed out" style give my pictures an unmistakable expression. Thankful for all the experiences and acquaintances so far, I look forward to all the other moments that make the trigger of my camera sound the same with my heartbeat.

My photography focuses on moments full of emotions and straight from life. I do not want to beautify or create anything, but to capture the uniqueness of each motif in its own beauty. In addition to nature, it is above all the music that accompanies me, inspires me and that has become my core competence. I deal with the music and the artists, capture unique concert moments, develop concepts for band shootings and leave enough space to create and develop natural moments.

Photos I have taken have appeared in major national and international publications, including **20min, Tagesanzeiger, the Bund, Blick, Aargauer Zeitung, Viral Magazin, Negative White, Landbote, Under the Radar, Rockstar Magazin, Ron Orp Bern, Badener Tagblatt, Zentral Plus** and numerous other print and online sales outlets.

I live near Zurich.

Press reports:

2015: Bremgarter Bezirksanzeiger

2016: JULI Kulturmagazin
