Hello friends wherever you see this car,
let me know. It's mine and it has been
stolen.

Belinda Walker

Sadly on Thursday night my Husbands [Jim Walker](#) car was stolen from our home. Attached to his car was his double axle trailer with all his tools of trade. Cement mixer buckets of tools tressles scaffolding etc. I have attached a photo of the car. This is Jims lively hood just taken away just like that. Please share and keep sharing. We would be soooo grateful if we could even get his tools back and some personal items from the car. We are all still left wondering what makes people tick.

Extra eyes around town would be really appreciated, as our car was stolen from our driveway last night. Unfortunately, it had our babys pram & carseat in it that we took out a loan to buy, along with a knitted blanket that is very sentimental. Our daughter was born 11 weeks premature in April this year, spent two months in hospital, & that was her first blanket while in NICU. Even if we can just get our babys items dropped off anonymously, no questions asked. Thank you

My brothers car was stolen around 3:30am in Ashwood, Melbourne, VIC. Prior to them stealing this car they had stolen a red celica and dumped it next to where my brothers car was stolen. Its my brothers family car and uses it to take his 3 year old son to day care.

It has a baby seat in the back and has a very loud exhaust, so you would be able to hear it coming. Its a 1997 Nissan Stagea 260RS Station Wagon. So PLEASE if anyone sees this car please tell me or call the police.

These low life fucks have clearly done this in the past and clearly get a hard on making people life miserable. I hope they burn in hell and get punished for ruining peoples lives. May you crash into a tree and get caught!!

STOLEN-----STOLEN-----STOLEN-----This car was a pure memorial to 2 great people, My good friend Mark passed away in 2002, in a tragic motorbike accident, his father, Tad (snow), had owned it since then, but died in April, due to Cancer. Tad and I went to many car shows and cruises to try and help Mark's memories live on. I feel so empty, the 1 thing that held so many memories of both Mark and Tad was stolen between 3pm Friday 10th July and 4pm Saturday 11th July. If anyone has seen or heard or anything in regards to our precious XY, please let me know. Plates XY-0666. Had a wolf airbrushed on the bonnet and Chinese symbols on the doors, maroon interior, dark window tint. I'm so sorry Tad. If you do see this car, please call 000 immediately so that they can get to it. Since posting this on several Facebook groups and pages on Saturday afternoon it has been shared 1000s of times and 1000s of comments. Please help...more pictures in comments. Car was stolen in NSW

A Black Nissan Skyline R34 Gt-t was stolen out of a car park from Russel street CBD on the 25/12. Yes on Xmas Day the bastards. Has the number plate of TTD-357. Has a bit of hailstone damage on the bonnet, and there is also a bit of noticeable rust on the boot lid from the brake light. Here are some older pics of the car which i was able to find from the archives.

Having checked our Breeze tag activity, car seemed to have been in the area of the Wellington/Police Rd exit on the East Link. He entered the Mullum Mullum tunnel at 5:42pm and exited the Wellington/Police Rd exit at 5:51pm 25/12.

If anyone has seen the car, please message me. This car has been with us for quite a long time and has some sentimental value.

Reaching out to you all. Hopefully we can find out where it's gone.
