3 secs ago. Candy Crush Saga is just as sweet as the delicious treats it features, and twice as addictive. What started out as a basic Bejeweled clone that you could play right in your web browser now vies for your attention, and your money, on the internet, Facebook, your tablet, and even on your phone.

Even though Candy Crush is totally free to play, it can actually turn into one of the most expensive habits you'll ever have. The developer, King, is able to support a free-to-play game like this by selling in-app purchases like extra lives and boosters.

If you want to climb all the way to the top of the leaderboards without spending a lot of cash, it's important to take advantage of all the Candy Crush cheats, tips, tricks, and advanced strategies available to you, and we've pulled them all together right here.

## Cheats in Candy Crush

While there are some ways to cheat the system in Candy Crush, it's extremely important to note that services and programs that promise to hack your Candy Crush game or give you free lives, boosters, gold, or anything else, are almost always scams.

Never download anything, or sign up for any service, from any source that you don't trust, even if it does promise to give you free lives or allow you to skip Candy Crush levels. Even if one of these services did work, King could ban your account if it was discovered, and you would lose all your hard work.

Candy Crush Saga may be a match-three puzzle computer game released by King on April 12, 2012 for Facebook, and on November 14, 2012 for iOS, Android, Fire OS, Windows Phone, Windows 10 and Tizen. As of March 2013, Candy Crush Saga surpassed FarmVille 2 because the hottest game on Facebook, with 46 million average monthly users. it's a variation on their browser game Candy Crush. In November 2013, the "Dreamworld" expansion was launched, creating nocturnal-themed but harder versions of previously released levels. In December 2014, the sport was released for Windows Phone.

The game is periodically updated, adding new "episodes" and more playable levels; new levels are updated first on Facebook followed by Android and iPhone. Candy Crush Saga has "episodes" of 15 levels each (the first two "episodes" have only 10 levels). An update to the sport in November 27, 2013 added the "Dreamworld" levels, giving players the chance to replay older levels with a replacement mechanic, which was also periodically updated. As of July 2015, the Facebook edition has over 1100 regular levels with new levels added regularly, while Dreamworld concluded at 665 levels.
