Here are some basic tips to get you started if you're a full-fledged n00b - the game lets you enter a map, most commonly with 2 other players, in a 3v3 setup (this depends on the events, but we'll get to that in a minute). You play like a Brawler. These Brawlers are the characters of the game. There are currently 22 Brawlers available. You start with one and as you play you unlock new fighters. These fighters also have various types. Some are fighters or healers while others are assassins or sharpshooters. Each brawler like Attack, Super and Star Power. One of our favorite n00b brawlers is Nita. The evil little boy in the bear hat. He is capable of breaking or bullying depending on what you need, but his stellar power of him is Bear With Me - where he releases his bear of him into the arena to fight for him on his behalf. The more you play, the more brawlers you unlock. The best way to learn their skills is to play with them and level them up. Easy, now let's move on to the events. The game itself allows 9 different types of games that you can fight. The 6 ticketless events are Bounty, Brawl Ball, Gem Grab, Heist, Solo Showdown and Duo Showdown. You'll probably start with some of these. The 3 ticketed events are Robo Rumble, Boss Fight and Big Gone. The events are explained to you so that you can follow them relatively quickly. What you will need to master are the controls. On the left side of the screen, drag your finger to control the movement of your Brawler. On the right hand of the screen, you drag your finger to aim and shoot, then to attack. Ideally, you want to hold your phone like a game controller and use your left hand thumb for movement and your right hand thumb to attack. Swiping your finger is a bit like moving a joystick. The attack can be done in a variety of ways: you can drag to aim and release to fire a long range attack or quickly tap right for a quick fire. As you cause damage, you will increase your super ability. When this is

fully powered, you will see the yellow button on the right ready for use. You'll have to hold it down and drag to aim - and then aim at your super skill - or you can quickly fire it to drop it right where you are.

There's a reason why Brawl Stars is dominating social media discussions and being added to tournaments - it's a fun game. Free for both Android and iOS, the mobile fighting game or party brawler if you want is 3 to 4 minutes of giggles that your mom will enjoy too (and stop playing Candy Crush, so everyone will win).
