

MBHenriksen Retouching Rates

My standard rate is \$15 US Dollars per retouch. This can vary depending on the image, however I will always discuss with you if that is the case.

Retouching includes:

Full image retouch

Two-time review (you will be able to make notes twice on each image during the process. After this, if further reviewing is needed, there is an extra \$5 US Dollars fee for each following review)

Example 1.

6 images retouched, including two reviews per image = \$90 USD

Example 2.

6 images retouched, including three reviews on two of the images, two on the remaining four = \$100 USD

Example 3.

6 images retouched, including three reviews on all images and an additional review on one image = \$125 USD

Turnaround time

Turnaround time will depend on the job. I will give you an estimated timeframe when accepting the job.

Always let me know of any deadline at earliest possible time, preferably in your first message.

Unless otherwise agreed, I may use the retouched image as I please. If the retouch is for publishing in magazines or elsewhere, of course I will wait till after that is out before I use the image. Please let me know if the images are going to be published so I am aware beforehand.

Crediting me with name and website/Instagram with posts of retouches is always greatly appreciated, but not required.

Payment

Once all images are retouched you will receive an invoice which you have up to 14 days to pay. Payment method is PayPal.

I look forward to working with you!
