Some of the most extraordinary stories are originated by the most simple of coincidences. That is how this editorial came up. Lea Haley, international model, sportswoman, dancer and actress passing by Madrid (Spain), for a stay no longer than three days, got in touch with me and we both decided to run a sort of improvised session due to the time limitation, although I sensed beforehand it would be really interesting.

Being able to play with an improvised session makes it instinctive, it becomes pure creativity in motion and I want to keep that 'liberty' which playing allows. I can see in my mind all the details and then imagine all the required techniques. To make this happen I needed the 'savoir-faire' of the expert atelier L'Studio, capable of creating a complex, delicate and handcrafted process, like those garments that veil skin as the most distinguished of dresses. Color and aesthetics radiate freshness and sensuality but connect with Lea's instinctive elegance. Lea transmits force and magnetism; she is full of energy and has a mesmerizing brightness. It is a luxury to be able to do what you enjoy and make your dreams and projects come true.
