## Photographer

### About Me

I'm a successful entrepreneur with a background in the telecommunications and space industries, now channeling that same drive and dedication into the art of photography. As the founder of Resolution Photography, based in the Bay Area, I specialize in events and portraiture for families, businesses, schools, and organizations.

At Resolution Photography, I pride myself on delivering exceptional quality and turnaround speed—all at an economical price point. Whether you're planning a conference, capturing a milestone, or organizing a school event, I provide high-value photography tailored to your budget.

My approach is professional and personalized: I plan every shot in advance, scout locations, and meet with clients beforehand to ensure your vision is captured just as you imagined. I'm also dual-certified in Commercial Photography and Digital Photography Techniques, ensuring both technical precision and creative excellence in every session.

### Experience

- Foothill College - Photography Studio Manager
  - Teach 40 students about studio equipment and techniques for outstanding portraiture
- Freelance Event Photographer
  - Marketing/Social Media - Candid and poised photos of events, conferences and graduations
  - Families - Weddings, rehearsals & family focused second photographer
