

The Bugatti of
home audio.

Literally.

[TIDAL][®]
we build emotions.

– for –

Tidal-audio.com/bugatti

Superlative
Quality,
becomes its own
Metaphor.

*The first TIDAL
for BUGATTI Masterpiece
is the ROYALE series.*

A name not just given lightheaded, since not only it reflects one of the most prestigious models in the BUGATTI heritage and product history. Also for us it means it is 'the crown jewel' of everything we achieved so far, compressing and repackaging all our famous merits - sound, design and finish at state-of-the-art level – in such a high density that we classify **it a game changer without hesitating.**
