I have a friend that likes to take photos and will shoot my wedding for free; is that a good idea?

You probably have friends or family that like to cook; would you hire them to cater your wedding? My question: how much are these memories worth to you? Having an expert wedding photographer attend to your wedding is the best solution. Save your friendship!

Shouldn't my photographer have a designated back up in case he/she is sick on my wedding day? That would be ideal, but consider the plight of the backup photographer who has to turn down weddings just in case she/he is needed for yours? Professionals are part of a network of photographers, and do have people they can call in emergency. No doubt as your wedding approaches you will have many far more significant worries. Let us manage this.

Can I print my images?

All my packages include the rights to print your own images. There is a release in the contract.

Do you offer videography?

No video. I am a photographer that is what I love. I can recommend excellent videographers.

Can I give you a list of must-have photos?

If you give me a list I will do the best I can to capture those images. I find, however, that if you slavishly follow a list, you miss opportunities to capture beautiful moments.

How far will you travel for a wedding? I love destination weddings!! Nuff sed!

How long have you been shooting weddings? Over 10 years.

Do you edit all the images you will send to us?

Yes, every image is adjusted manually for optimal image quality.

Do you allow other people to take photographs while you are working? Certainly!

Do you accept credit cards? Yes, I accept credit cards.
