HOW TO PREPARE

Thank you for booking a lesson, I'm so excited to teach you!

We're going to create a full face together, step-by-step using your products plus anything you'd like to try from my kit (and there are some very nice goodies in there).

A couple of prep notes so we can make the most of our time:

- Please arrive with a clean, freshly moisturised face and no makeup on. We'll be swatching foundation just below your collarbones, so wear something that gives easy access there (nothing precious just in case of a little makeup transfer!).
- Bring all your makeup and tools, even the old, nearly-empty favourites. I love seeing what you already have. And if you're starting from scratch or don't have much yet, that's completely fine too, we'll build from wherever you're at.

During the lesson, I'll keep track of anything you fall in love with from my kit and put together a personalised shopping list for you afterwards, with links and notes on exactly how to use everything based on what we did together.

You can pay the remaining balance on the day by cash or card.

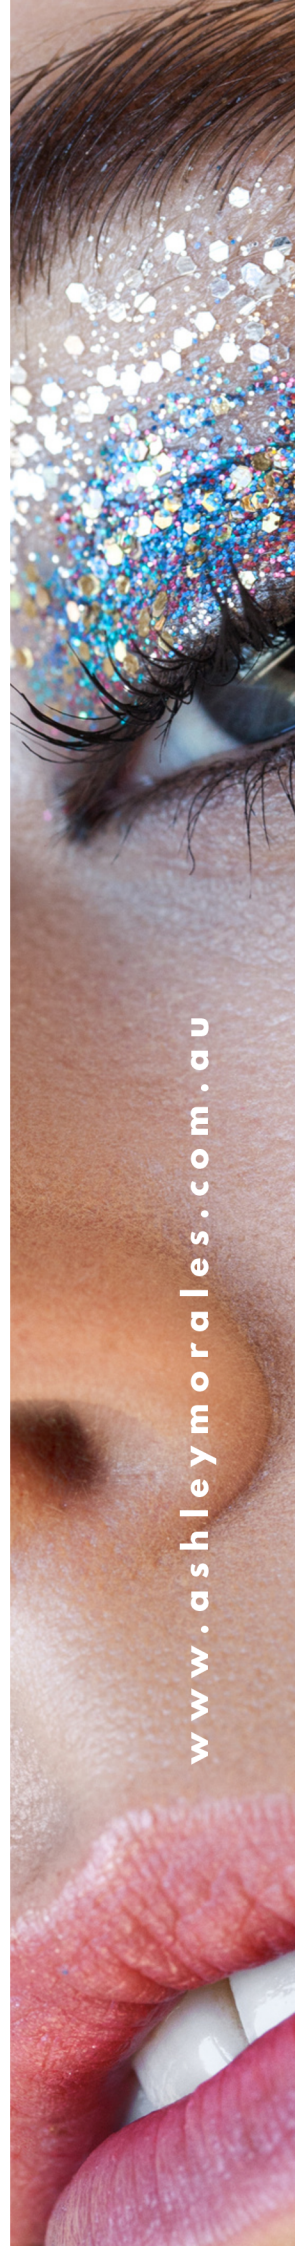

Quick checklist:

- Clean, moisturised face (no makeup)
- Top that lets us swatch below your collarbones
- All your makeup + tools

Can't wait, this is going to be so much fun!
