This offer is a simplified version of the portrait experience, focusing on the creation of digital images.

HOW DOES IT WORK?

My aim is to capture your pregnancy in a deeply personal way, in harmony with the style and atmosphere of your home. I'll be with you every step of the way — from our first conversation right through to the moment your prints are in your hands — and help you choose the prints that will enhance both your photos and your home décor.

THE CONSULTATION

Once your session is booked, we'll arrange a meeting — either online or at my studio in Chêne-Bougeries — to start planning your experience together. We'll discuss the atmosphere and style you'd like for your portraits, the most flattering colours to wear, the style of your home, and where you'd like to display your artwork.

YOUR PHOTOGRAPHY EXPERIENCE

On the day of your session, I'll gently guide you through each pose and every moment, highlighting the styles that suit you best and truly reflect who you are. All you need to do is turn up — I'll take care of everything else.

THE RETOUCHING

Every image you select is retouched entirely by hand, with care and attention, to enhance your natural beauty whilst preserving your radiance and authenticity. Nothing is overdone; everything is done with great care.

THE REVEAL

At the end of your session, you'll discover your most stunning portraits, choose your favourites, and start thinking about where you'd like to display them and which prints would suit your home best.

YOUR ARTWORKS

Come and collect your finished artwork from my studio, then take it home to admire every day — a lasting, tangible memento of one of the most extraordinary chapters of your life.

Additional digital portraits and art prints can be added to your package after your session.
