

jessica gaba

(b. 1994)

about

Jessica Gaba is a Toronto based artist, exploring body centric themes through time-based media and sculptural installations. Her works view the body as a space for negotiating feelings of the past. She works with layering of textures in order to evoke a sense of presence, of history and of diminishing memory.

education

2017 B.F.A. Integrated Media, OCAD University, Toronto
