ADAM HUDSON

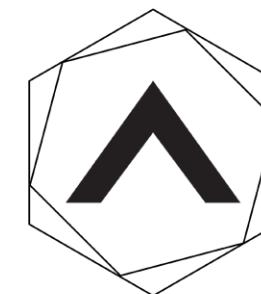

DANCE
PHOTOGRAPHY

A dancer's portfolio is an essential part of your self presentation as an artist and can play an influential role in shaping a dancer's entire career. Unique, well presented images can sometimes be the difference between being seen by a casting agent or not; being put forward for a role or being overlooked. A good portfolio therefore represents an investment into your dancing career and subsequently your potential future within what is a competitive industry.

Like any artist, no two dancers are ever identical. As a result, no two dance shoots are treated the same. Just because one dancer feels comfortable doing certain movements, doesn't mean every dancer excels in that discipline. This is why before every shoot, we'll have a discussion about what you want to achieve and how best to achieve those results. Obtaining the right shots is very much a collective effort and it can take time and patience to capture the right images so I never rush shoots and via shooting tethered to my computer, we can work closely together to adjust your positions as we go.

ADAM HUDSON

do it big
do it right
and do it
with style.

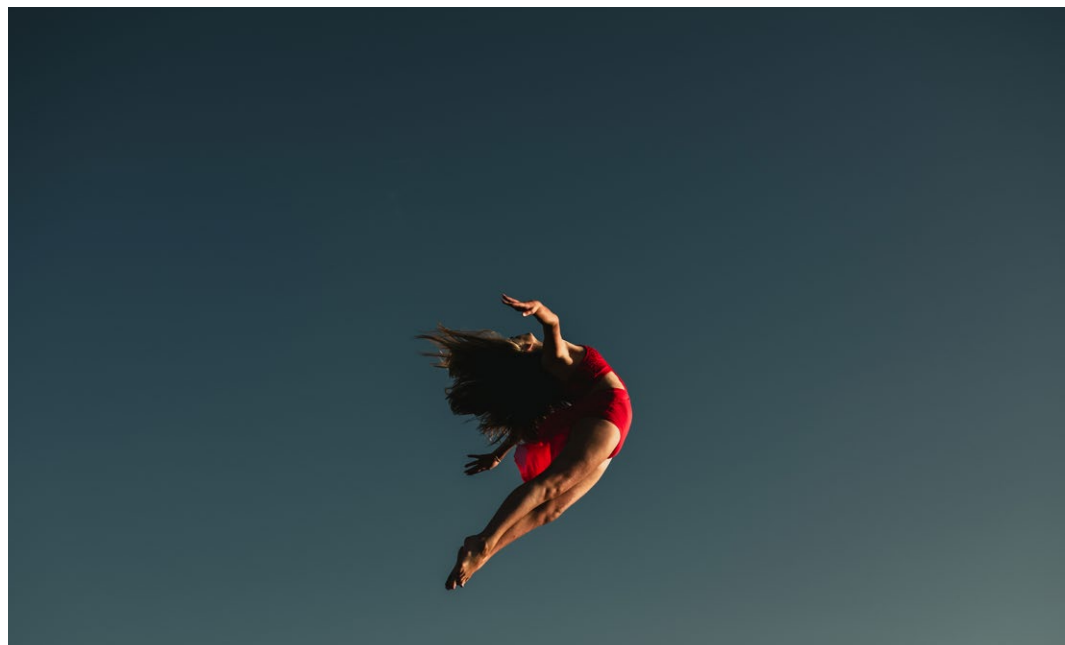

Studio Shoots

Controlled Environment.

The Studio space allows us to strive for perfection. I work hand in hand with each dancer, shooting, reviewing and re-shooting until we execute each pose to the highest standard possible.

Location Shoots

Location shoots offer complete flexibility and creativity.

Dependent on the look and feel desired, we can shoot in a variety of locations from urban landscapes to dramatic natural scenes. We shoot, we move, we shoot again and it provides something completely different to the typical dance portfolio. Some areas to consider would be:

- **Manchester** (Northern Quarter / Salford Quays)
- **Liverpool** (Albert Dock / Waterfront)
- **Lake District**

not all
group shots
are created
equal.

Group shots should be an expression of individual talent and personality. Working with multiple dancers can be challenging but ultimately the results should reflect the individuals within the group.

Let's get creative

Let's think outside the traditional box and explore together, have fun and get creative. I genuinely challenge myself at each dance portfolio I shoot and i'm never afraid to try something different.

Got any ideas you love? Just let me know.

Dance Schools

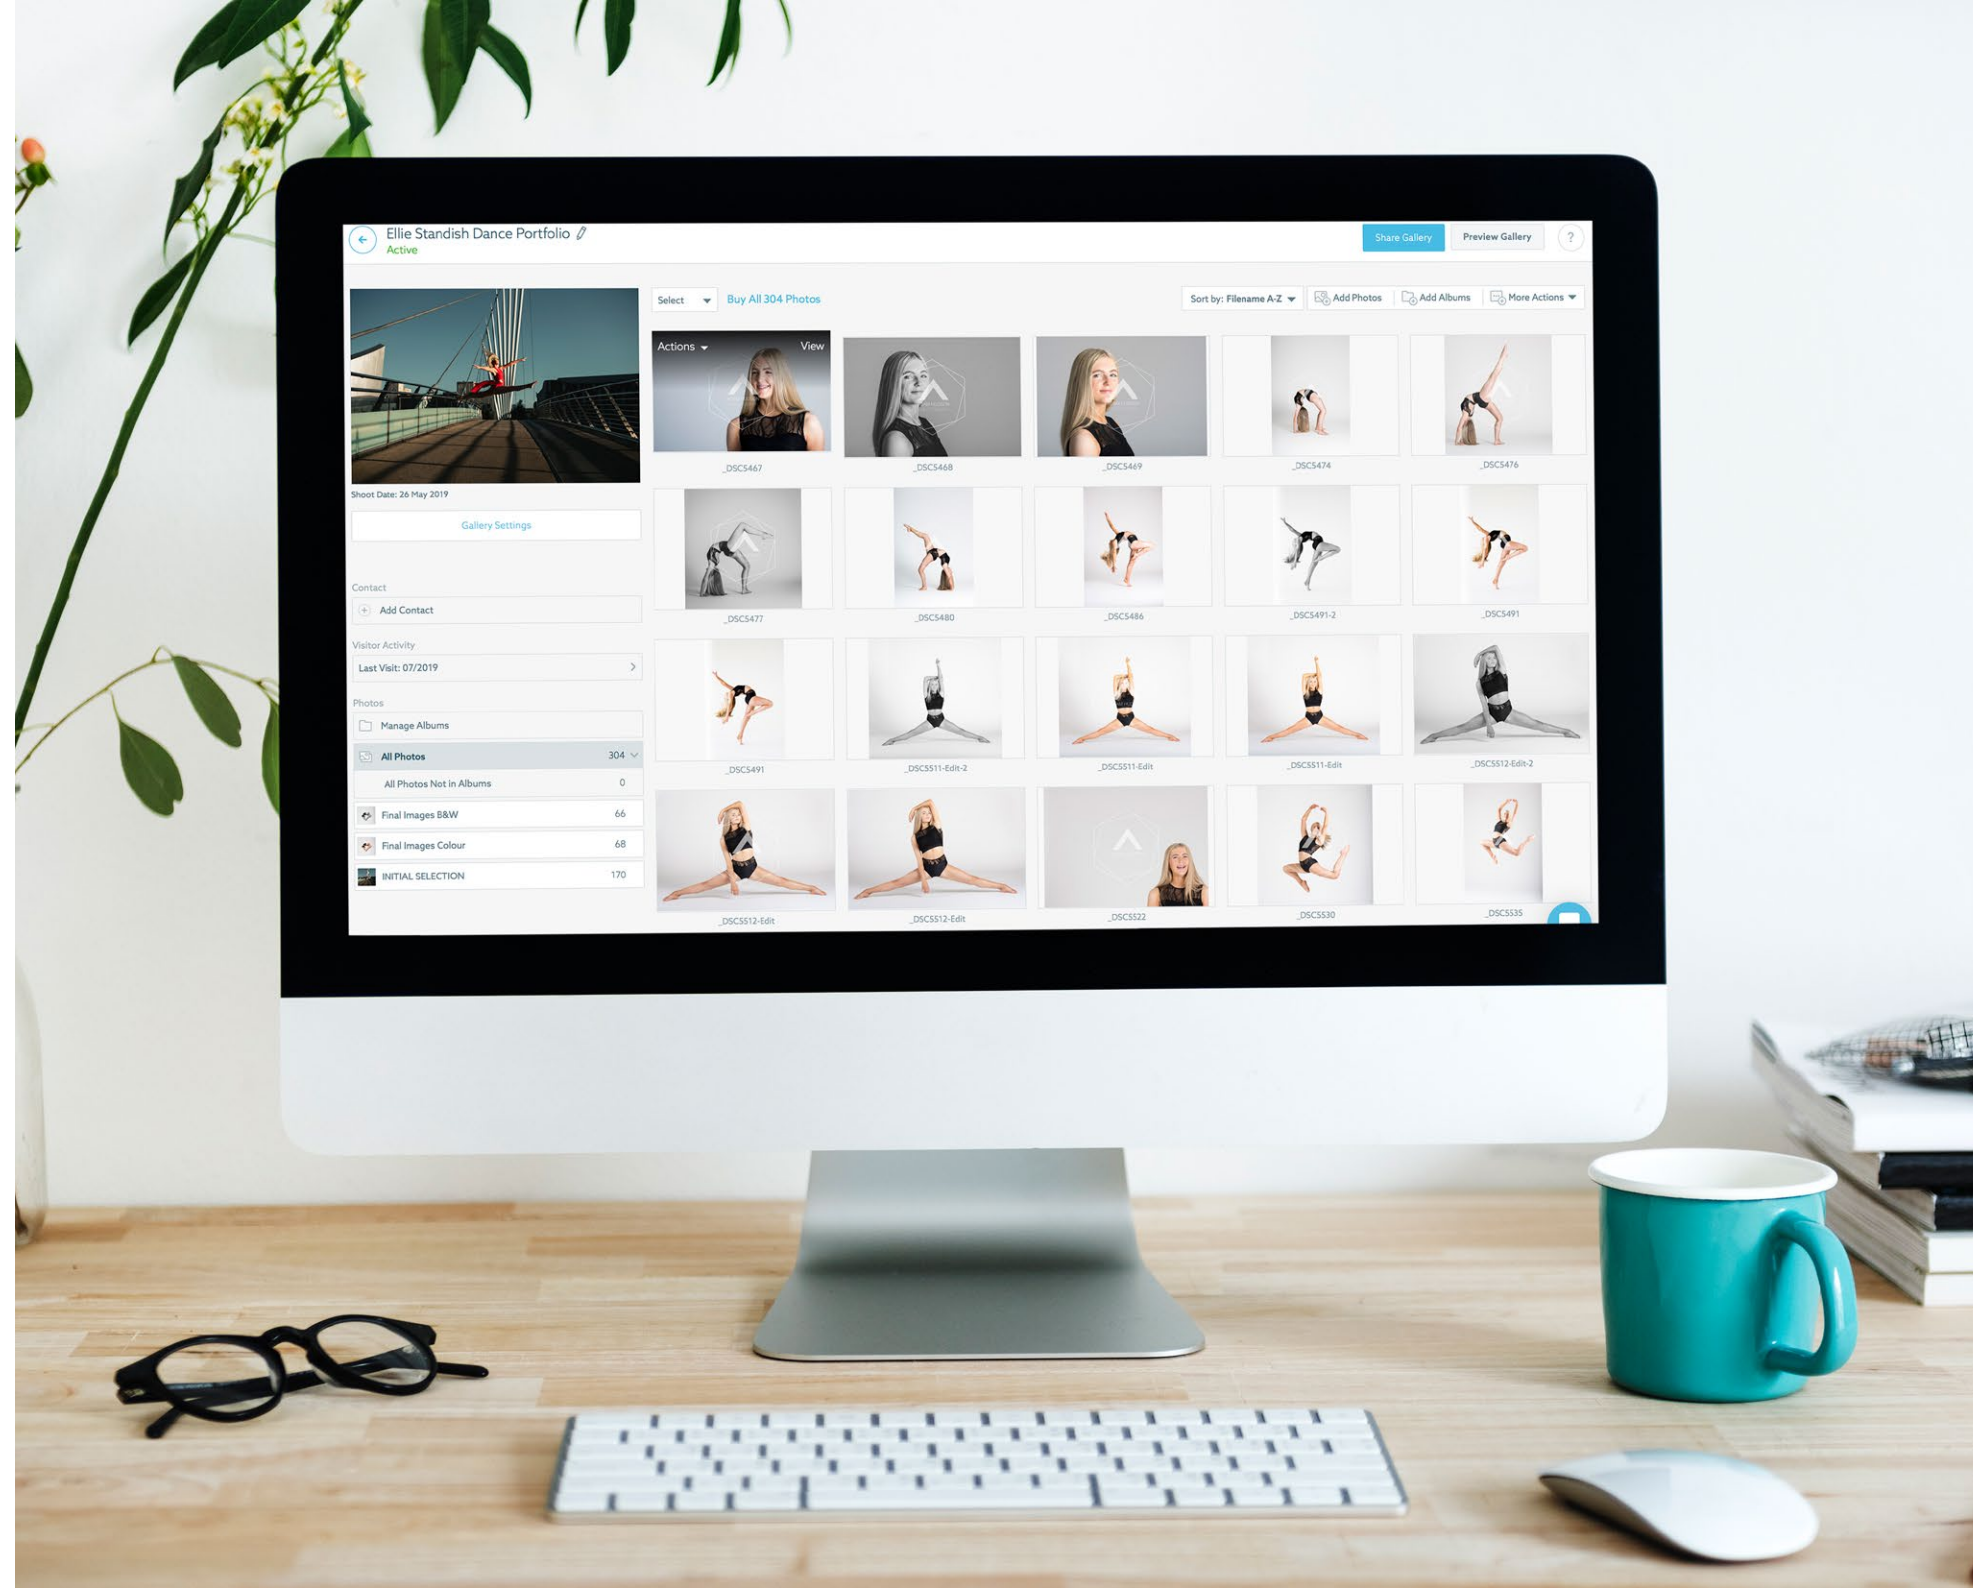

Inject your personality

Whether it's branding / website / social media images to attract new dancers or show coverage with a difference, I've worked with a variety of dance schools to enhance their overall look and feel and to produce images which are reflective of the incredibly high standard of choreography it deserves.

WE ARE MDC

Let's talk delivery

Every dancer I work with receives a personalised Online Gallery where you can download your images and share it with family and friends. Prints can be ordered directly from this gallery if desired but there are no additional charges for downloading and printing the images yourself.

Call me a little old fashioned but I still love a printed picture. I always like to encourage dancers to display their pictures outside of social media and be bold and print images and hang them on your wall.
