

# Tony Krash

Tony Krash is a photographer, videographer, and artist born and raised in Oak Cliff, Dallas, Texas. Inspired by documentary photography and the juxtaposition of traditional and modern latinx culture, Tony explores his subjects through an intimate lens. His nuanced approach can be attributed to his commitment towards representation and personal narrative. As a queer brown creative, his interests range from cultural, stylized fashion portraits to the experiences of queer subcultures. Notable partnerships in his portfolio include a long-term collaboration with artist Erykah Badu.
