webeyez product oversees the front-end performance of your eComm website. It helps your tech team to identify, analyse and evaluate technical issues in comparison to your competitors.

Next, webeyez would like to provide business-critical analysis by presenting performance at a glance rank based on aggregated performance grades.

The following viz is the intended design for **an engaging technical experience score**. With this viz, you, the business stakeholder, can gain immediate tech insights on how well your eComm performs. And you'll enjoy it!
