INVESTMENT GUIDE

Hello!

Thank you so much for reaching out and considering me for your special day.

I love photography. For over 15 years, photography has been an integral part of my livelihood. It's been a true blessing to integrate such a passion into my life; capturing the stories and moments of my clients is what I love most.

When I am not shooting weddings and events, you'll find me in the classroom teaching photography at a local college. This allows me to dive deep into the world of photography and be inspired by new and innovative ideas.

SERVICES & PRICE GUIDE

How I Shoot Weddings

Every wedding is unique, and I believe your photography should reflect your story, your personalities, and the vision you've worked so hard to create. My photography style is vibrant, eye-catching, and detail-oriented, focusing on authentic moments while preserving the colors, emotions, and atmosphere that make your wedding day unforgettable.

When I'm behind the camera, my goal is to capture both the big moments and the small ones. My approach is documentary & candid for most of the day, with some posed editorial shots with couples one on one. I strive to create images that feel natural, timeless, and full of life.

As a photographer, I'm laid-back, approachable, and easygoing. Weddings can be stressful enough, so I aim to bring a calm and relaxed presence to your day. Whether I'm helping keep the timeline on track, offering gentle posing guidance, or blending into the background to capture candid moments, my focus is on helping you feel comfortable and enjoy every moment.

Before your wedding day, I love meeting with couples over a cup of coffee to get to know each other. It's an opportunity to learn about your story, hear what matters most to you, and understand your vision for the day. Building that rapport beforehand allows me to create a more personalized experience and capture the moments that mean the most to you.

The Experience

ONE

Getting Ready

The wedding day begins long before you walk down the aisle. These moments capture the excitement, anticipation, and emotions as you and your closest loved ones prepare for the day ahead. From final touches to hair and makeup to heartfelt moments with parents, family, and your wedding party, this chapter tells the story of your vision coming to life

TWO

The Big Moments

These are the moments you've dreamed about and planned for. From first looks and walking down the aisle to family portraits, your grand entrance, first dance, and cake cutting, these milestone memories deserve to be preserved beautifully. Together, they tell the story of the day you officially began your next chapter.

THREE

The Details

The little details are what make your wedding uniquely yours. From carefully chosen florals and décor to your rings, venue, invitations, and personal touches, these elements help tell the story of your style and vision. Capturing these details ensures you'll remember not just how your wedding looked, but how it felt.

My Team

Every wedding package includes coverage from both myself and my wife as a dedicated second shooter. As partners in life and behind the lens, we work seamlessly together to capture your wedding day from multiple perspectives and angles.

Our different strengths and creative perspectives allow us to tell a more complete story of your day, ensuring no special moment goes unnoticed.

Having two photographers means more coverage, more memories preserved, and the confideence that every important moment is being captured with care.
